Execution 4 Business Rules 31/40 the explication allows a dentist to buy services for a policent and 11. register the bill is working, but it is not so intuitive. 9/10 Discount if its costs is more than 200 dobrs, is also working but if the program delete a product, then add again, the discount is not applied until the price rise to 300 -400 - 500 - etc. 7/10 1.3. Allows to assign appointments to a specific policial is working but the dute is also with an lour of 12:00 AM and can be confused with the appointment hour. 9/10 1.4. The program ealculate the annual income but it doesn't show what and the price of the income. Need more information to show. 6/10 9,5/10 2. Login The login shows the popular warning twice when you don't use the correct user and passward, Could be better to use just one cuindow when the user and password is different. 1 43/50 3. Other. 9 9 9 9 - The program opens two windows at the same time sometime. - Could be added a "last name" option in "add patients" The program deeself validate the number of contact. In "Trolomients dol Posicite" could be a combobox insteal of a text field - Minsing on option to go back in add patients" Gold be bigget ocreen at "mostror powerter", "editor powerter" and " eliminar paciente".
